

**On Fair Trials for Litigants in Prison on Remand
Loopholes in the Law**

1. Cardiff's Judiciary continues to exploit this Litigant in Person's challenge to claim damages, whilst being held in custody.
2. Repeated failure to produce this prisoner to court, seven times between September and December 2011, is contrary to Article 6 of ECHR 1953 and why Articles 1 and 13 were omitted from the 1998 Act.
3. Instead, blatant blackmail is applied at every opportunity to force a Litigant in custody to instruct a lawyer with all its dangers.
4. Crown Prosecution, Prison, Police and MAPPA records confirm that this prisoner has exhausted all reasonable attempts to obtain disclosure of withheld evidence.
5. Just as with the 'machine gun trial' in 2009/10, malicious prosecution MAPPA records were reliant on falsified psychiatric records written by Dr Tegwyn Williams of Caswell Clinic.
6. In order to continue harassing this prisoner, in preparation of still more damages claims, the same reports have been used to obtain imprisonment on:
 - a. 22nd June 2009: for almost eight months, only for the acquittal on all charges, with disclosure by both Police and HM officials, who conspired to pervert the course of justice
 - b. June 2010: for one month for 'contempt of court'
 - c. February 2010: for 'attempted burglary of Caswell Clinic', all allegations then dropped
 - d. July 2010: for 'public order' allegations, all later dropped
 - e. July 2010: for 'common assault' with sentence, no penalty, delayed for over one year
 - f. June 2011: 'Fail to surrender to custody', no penalty, criminal damage, charge dropped
 - g. Sept 2011: 'conspiracy to abduct children', allegations dropped
 - h. Sept 2011: 'fail to surrender to bail', no penalty
 - i. Dec 2011: 'harassment of Dr Tegwyn Williams', subject to appeal
 - j. Dec 2011: 'breach of restraining order', charge yet to be heard.
7. Despite communications with Police, Magistrates and Crown Court, no hard evidence of a restraining order even existed, until a purported copy was provided on 22nd December.
8. Despite appeals filed with the courts for 2nd Nov 2010, 1st Dec 2011 and 25th August convictions, the latter for 'threat to shoot the Lord Mayor of Cardiff', the CPS, Magistrates, Crown Court and County Courts all refuse to reply to almost all letters that may progress the outstanding litigation. Both civil and criminal appeals are being deliberately delayed.
9. This prisoner therefore applies:
 - a. All cases to be transferred outside South Wales.
 - b. County Court cases not to be heard until at least three months after the release of the prisoner and the return of all computers and legal papers.
 - c. There be disclosure of all South Wales Police, Independent Advisory Group, MAPPA and Caswell Clinic minutes from meetings relating to Maurice John Kirk and his psychiatric reports stating he has 'significant brain damage' and possible brain tumour, an opinion only shared by HM Crown Prosecution Cardiff and the then Chief Constable Barbara Wilding, in order to register the victim as MAPPA level 3 for Ashworth.
