

Mr David Sissling,  
Chief Executive of Abertawe Morgannwg University Local Health Board  
South Wales

18<sup>th</sup> September 2010

Dear Sir,

**Dr Tegwyn Williams and Professor Roger Wood Falsified Medical Records**

This week the trial judge adjourned the evidence from being heard from a near hundred police officers for about six months, in order that I may have my hip replacement and suggested I had another brain scan, thus avoiding the criminal weighted proof of NHS and private doctors having to disclose their incriminating evidence.

The considerable expense, thus incurred, was due to the NHS not overriding the false medical evidence that blocked my planned July operation to have been carried out in order that I might be ready for ten weeks of very enjoyable cross examination of those that caused my name being removed from the veterinary register, effectively, for life.

The learned judge was informed that my new Barry GP, my Cowbridge lot, for eighteen years, refusing to lift a finger to help, could not obtain a brain scan appointment for his patient as the Hospital maintained there was 'no evidence' I needed one.

Both Dr Williams and Professor Wood, witnessed, in total, by around sixteen psychiatrists and psychologists, called in to examine me and /or my medical records, following the September 09 findings by SPECT scan, decided I had 'significant brain damage' and a paranoid delusional disorder, the latter based on my fixated belief I was suffering persecution by his joint employers, with the NHS, the South Wales Police.

South Wales Police Forensic Psychiatric Service, in early September 09, required I had a second scan after three months that they have now quietly 'buried'. Why, because my expensive but privately arranged 1<sup>st</sup> December 09 Dr Kemp report, via lawyer 'extraordinaire', Mr Walter Sweeney and Consultant radiologist wife, Nuala.

Dr Kemp's report castigated the quite unnecessary intrusive procedure, an infusion of radioactive nuclear isotopes into my brain, ordered by Williams insisting the prisoner, under his personally concocted three month incarceration in his 'Gulag style' laboratory, reliant on CPS inspired Section 35 of the 1983 Mental Health Act, writing his 3<sup>rd</sup> August psychiatric report without even a physical examination!

Today I have caused further disclosure of, as yet, withheld medical records, some of which I enclose, further giving support that a police investigation take place from outside South Wales.

If you do not expedite your duties to allow me my operation to go ahead, in safety, very soon, to relieve both pain and avoid the obvious side effects of morphine that could now affect my flying licences, I may be forced to take the law into my own hands, once again witnessing tyranny in our midst and to personally obtain those records from the named culprits, records under YOUR CONTROL, used on 2<sup>nd</sup> December 2009 in the CPS/police last ditch attempt to

stop both the 'machine gun trial' and my seventeen year running damages trial against them from going ahead.

Yours faithfully,
