

1. **Maurice J Kirk BVSc** was a veterinary surgeon and private pilot whose public and private life has been ruined by what appears to be a vendetta of various police organisations. Having found a number of dubious pretexts for categorising him level 3 (terrorist) of the Multi-Agency Public Protection Arrangement (MAPPA), a leaked report revealed that he was even a target to be shot.
2. **Since Arrival in Wales in 1992**, harassment by South Wales Police (SWP) has escalated. It is believed because he was a “Flying Vet” in England, who visited his veterinary clients by aeroplane and thus was outside police control. Harassment followed him to the Channel Islands and Wales and consisted of numerous imprisonments without trial, stopping him in the road countless times and ignoring the investigation of crimes committed against him, such as arson, burglaries, the stealing and falsification of cheques, numerous brutal physical attacks leading to fraudulent imprisonments and eventually committing him to Caswell Psychiatric Clinic, besides categorising him as ‘terrorist’, i.e. applying MAPPA (Multi-Agency Public Protection Arrangement) level 3 surveillance. Maurice won well over 100 legal allegations against SWP while he lost around 12. His civil action for damages is before Cardiff County Court now. He is being helped by one of the 4 other victims of police harassment in South Wales.
3. **Machine Gun Case**
SWP prosecuted Maurice for possession of a machine gun and opposed bail, as he was considered to be dangerous. He was kept on remand for over seven months. SWP knew Maurice owned a replica WW1 vintage De-Havilland DH2 which he flew at 2000 Farnborough Air Show. Attached to it was a decommissioned WW1 machine gun which he offered for sale via his website. He won without needing even to give evidence or call witnesses. The case of malice requires immediate legal representation for compensation against SWP if only Maurice could find a lawyer.
4. **Struck off Register of Royal College of Veterinary Surgeons (RCVS)**
As farfetched as it may seem, SWP succeeded in getting Maurice struck off the Register to practise veterinary surgery by using minor old convictions including the car incidents. Triggered by a SWP police officer reporting two dogs believed to have fallen over a cliff to the RCVS, two charges were formulated:
A) *‘his attitude towards authority was not conducive to that expected in society of a professional man’*
B) *‘refused to disclose his records of treatment for both dogs on a beach’* after their own court legal assessor refused him to do just that!
Six applications, to re-instate him, have been refused, three even to go before the court..
5. **Numerous Fraudulent Imprisonments**
The 40 odd car incidents were the occasion for keeping Maurice locked up 8 times, for varying length. One of the strategies was to harass his agent to ensure he would not get insurance for any of his vehicles in Wales. This was the tactic that did succeed in Guernsey.
6. **Three months in Caswell Psychiatric Prison**
He was jailed to Caswell Clinic by Crown Court, under Section 35 of the 1983 Mental Health Act, reliant only on *Dr Tegwyn Williams*, without even examination. He was transferred back to Cardiff Prison after the statutory limit of three months because no other doctor would support the Director of SWP Forensic Psychiatric Prison’s recommendation that he be sent to Ashworth High Security Prison, indefinitely.
7. **MAPPA level 3 Surveillance (Multi-Agency Public Protection Arrangement)**
While Maurice suspected this formalised surveillance, he only got confirmation recently about having been the subject of discussion at seven meetings between June and December 2009. Whilst in prison HM authorities denied any knowledge of it. Only in December did the MAPPA co-ordinator confirm he was and would be informed about his status and reports of meetings. He is currently waiting for a judgment on disclosure of those monthly meetings in his ongoing eighteen year in an ‘unusual’, ‘extreme’ and indefinite set of circumstances.
8. **Judgement against HMP Cardiff who don’t pay up**
A £50,000 judgement awarded for false imprisonment, has been overturned in a bizarre manner reliant on failed disclosure by HM Court Service, HM prison and HM Treasury Solicitor
9. **Civil Action against SWP for Damages needing One Hundred Witnesses**
Trial date was September, 2008 then January 2009 then September 2010 now September 2011. It is being commented upon on www.kirkflyingvet.com as well as on www.mauricejohnkirk.wordpress.com
10. **Critical Medical Condition**
Maurice was scheduled for a hip replacement on June 22nd, 2010. But his medical records that could be released by five different institutions are being withheld. Hence this [online petition](#).
11. **Asking for Asylum in France**
Despite his medical condition and despite requesting an adjournment, Cardiff Magistrates Court issued a [Warrant for Arrest](#) which is now the reason he has been granted asylum in France.
