HM Crown Prosecution Service  
Cardiff  
Wales

7th October 2017

Dear Sir,

### **A Proposed Draft Restraining Order re My Fabricated MAPPAs Records**

My telephone call was again to seek disclosure for Criminal Court of Appeal, ECHR and Civil Appeals Registry, as to which, when, why and where purported restraining orders were ever served on me in the first place relating to unlawfully obtained fabricated MAPPAs records?

I recall no 'restraining order', relating to my police forensic history, having ever been served on me until an alleged breach of one has led to my eventually being arrested.

Only one draft, in all purported 'variations' of the original restraining order, may have been attempted to be served on me if the evidence, on oath, of the original CPS barrister in Bristol Crown Court is to be believed. That draft is again requested for the 17<sup>th</sup> Nov 2017 hearing.

The Court of Appeal dismissed my appeal re 1<sup>st</sup> Dec 2011 'breach' as both Their Lordships, Leveson LJ and Mitting J, were seriously misled into believing (see transcript) that a jury had not written the enclosed jury-note specifically asking for CCTV, Geoamey, police and magistrate's clerk notes of 'service' of a purported 'draft' or otherwise.

The 'purported 'service' was inside my cell surrounded by no less than 4 guards protecting Lee Barker, he said, as I was branded a rare level 3 category 3 MAPPAs and very violent prisoner! No one, to this day, has told me *when and why* I was registered and now, *why not?*

Until a court considers the interests of the general public, by ordering my false MAPPAs forensic history, to be disclosed and appropriately corrected by an outside police force called in to investigate, then there will be a 5<sup>th</sup> jury to convene to ask the obvious questions again.

This court withheld evidence was also denied me at my civil claim 'strike-out' hearing, done and dusted in mere nanoseconds, polluting both my HM Ministry of Justice and Parole Board in this travesty of justice that could so easily be remedied by a single Crown Court judge.

You refuse to email me the proposed restraining order but I am likely to agree with it, in any event, just as long it will finally put a stop to police forces around the world-wide continuing to apprehend me on any spurious excuses knowing charges will never achieve a conviction.
