Overdue Oesophageal Endoscopy for Biopsy

Dear Sir/Madam,

1. Did you receive my 21st March 18 letter for admission?
2. Have you received my 9th & 15th March 2008 letters, please?
3. In 2010 I booked in for a hip replacement at Vale Hospital
4. Can I pay for copy of the full records, please, required for RCJ?

I wish to book at your earliest convenience for the above name procedure following my now almost five month delay, originally to have been arranged in a Cardiff hospital.

An appointment was finally set for December 2017 but the South Wales Police again caused its cancellation, as it did whilst I was on 'parole' in July 2014 and again whilst registered MAPPa level category 3 in HMP Swansea. in the Spring of 2015

I suffer from a significant Barrett's Syndrome, I am told, originating from a possible diverticulum aggravated by a violent 'hang glider' accident, to put it mildly, back in the 70s due to a 'stall' from a considerable height to sustain compound fractures to right tib and fib.

'The exuberance of youth' and a passion to 'break the bonds of Earth' meant it was, a typical 'pilot error' scenario, I hasten to add, not an 'airframe malfunction'.

Concern has been raised as the local police have had this Claimant incarcerated during a substantial damages claim levelled against past and present chief constables, several part heard, with one involving a 1916 World War One Lewis machine-gun excellent, it is rumoured, for 'rabbit shooting' in the Vale of Glamorgan.

My GP has me on Omeprazole 20mg bid which is effective but I am aware surgery or otherwise may be 'just around the corner'.

Dr Tegwyn William's medical report caused my being on morphine sulphate far too long.

I have applied for bail or 'day release' from Park short staffed 'holiday camp' which is much quicker to obtain while my MAPPa level 3 category 3 registration is now expunged, for the 2nd time, thanks to the vigilance of G4S. I am expected to believe them.

I require admission forms & cost estimate, please and when this procedure will be?

Thankyou
