Dear Sir/Madam,

South Wales Police Dishonesty

I seek private legal representation in both civil and criminal cases as I find myself in an environment displaying a level of deceit of which I have never experienced in my whole life! All the outstanding cases rest on 14th Dec 17 judge saying she could not direct any organisation or individual (the author) to correct my hugely damaging 2009 medical report.

In 1992 I came to the Vale of Glamorgan simply to purchase a veterinary practice only to be quickly persecuted to a level of 'harassment' on a scale beyond even the realms of 1997 Prevention of Harassment Act. My cases to consider are on web sites if you can help, please?

ECHR A2/2017/02747 MJK v South Wales Police/Parole Board & HM Min of J

Warbuoys black cab 'rapist' parole board judgment, on same day as mine, had similar 'grounds' but in reverse argument as 8 month HMP Swansea re-call was obtained neither by a parole board before or after, contrary to statute, **anything to avoid machine-gun/Dr Tegwyn Williams data disclosure** to avoid, of course, a would be disastrous Judicial Review.

My recall was due to original 50 odd failed malicious prosecutions now in civil courts. Police therefore had their victim's name removed from veterinary register. As Lord Justice Hoffman QC summarised, at 19thJan04 HM Privy Council's Judicial Committee's hearing, 'no animal had any quarrel with Mr Kirk, it was with people he had the problem' or words to that effect

Since 1993 Welsh police were allowed fabricated forensic history, to remand in gaol, culminating in the blackmail and final sacking of their own chief forensic psychiatrist, Dr Tegwyn Williams, having served their purposes. He had me first sectioned without an examination and then stated 'significant brain damage' without being appropriately qualified, or a consultation. 'Machine-gun' conspiracy was going 'pear shaped' so concocted fire-arms charge for MAPPA abuse having their victim killed.

Criminal Court of Appeal 201704259B4 JL 4th 'breach' of a Restraining Order'

Originated from my legal 'course of conduct' ie '*to detect and prevent crime*'. I have achieved that statutory 'defence', years ago, so I require a 5th jury trial, please. **T201704259**

Caswell doctor falsified reports, for Barbara Wilding's Ashworth application for life, as now too late in having me shot. This current 2 year prison term was by publishing film of complaint in police station on how Dr Williams was blackmailed to write such gibberish..

I was never served a 'restraining order' by '*authority*' and deliberately not telling me about it. Nine times prevented from accessing criminal or civil hearings to obtain 'legal redress'.

Cardiff County Court 1CF03361 D00CF279 'Trading in machine-guns' civil claim & Glanrhyd Hospital 'break-in' for medical evidence

All from 25 year running **BS614159 case**, of 30 odd failed malicious prosecutions, now also HMP liable of medical negligence from blocking hospital appointments even when on parole

The authorities have tried ever dirty trick in the book, over the years, not to let the general public become aware of the level of deceit clearly currently accepted in their local law courts. My family can take emails off maurice@kirkflyingvet.com or tel +447708586202 & post.

Yours truly,
