Comments:

I am due to see nurses for assessment on 22nd June 9am but I feel it appropriate to direct the anaesthetist, Mr J Azami to retained medical records of Caswell Clinic used before His Honour Judge Bidder QC relating to possible brain tumour but significant brain damage. The records released finish in August 09 brain scan when I was told I should have a 2nd three months later...I was refused that opportunity. information on 2nd Dec 09 crown court hearing when doctor(s) indicated the seriousness has still not been released. Please confirm what ever it is is available by the 22nd. transcript of hearing was given to my GP and is on web site. thankyou www.kirkflyingvet.com
