The Recorder of Cardiff

machine-gun conspiracy **T20097445**

Cardiff Crown Court

6th June 2018

4th Time refused Hospital by G4S/MAPPA

1. I make application to Her Honour Judge Eleri Rees, sitting in the Criminal Court of Appeal, for disclosure to 27th June 2018 hearing arising from 4th breach of a restraining order(s) never served in the first place
2. In October/November 2009 the then Recorder of Cardiff, Mr Justice Nicholas Cooke QC, had promised both production and payment for 'machine-gun' T20097445 jury trial transcripts.
3. I request copy of the above transcripts, for Their Lordships, especially the hearing presided over by Her Honour Judge Eleri Rees when my counsel referred to Dr Williams' police fabricated medical reports contrary to £1,200 1st December 2009 Dr Kemp brain scan report.
4. That hearing had Dr Tegwyn Williams' FULL medical reports for police application that I be further sectioned for Ashworth for an indefinite period, ie for life.
5. I apply, again, for the full transcript of the hearing, in my absence referred to, enclosed, in an inter hospital liaison as to why no NHS hospital in your country would operate on me.
6. Also, as Cardiff Crown Court does not have the 'power' to have the General Medical Council informed of this fraud, I plead to the Criminal Court of Appeal to order G4S that I be entitled to have my general anaesthetic in Wales or anywhere as soon as possible.
