Regina v Maurice John Kirk

Dear Sir,

1. Please find enclosed copy of HM Crown Prosecution Service 30th May 2018 letter, 2nd paragraph, confirming the CPS, along with 14 Welsh judge so far, has neither power nor inclination to have Dr Tegwyn Williams investigated by the General Medical Council.
2. CPS also confirms it was un aware of my bail application, in the light of the 14th Dec 2017 'sentencing 'judge' stating Her Honour had not 'the power' to cause GMC investigation.
3. The trial judge was aware the police doctor, having first sectioned me to his experimental laboratories for radio isotopes into my brain, in Glanrhyd hospital's Caswell Clinic, had not even examined his victim to get me there from Cardiff prison.
4. The learned judge was also aware of exculpatory evidence hidden within South Wales Police clandestine MG6D files, contrary to Article 6, arising from 25 years of their harassment by 40 odd failed malicious prosecutions against me. These were all successfully contested, without the need of legal representation, in the hope to prevent my name being removed from the veterinary register. I had not understood, in those naïve days of ignorance, the frightening power of Welsh masonic devil worship.
5. The CPS, in final paragraph, states, **'disclosure was dealt with fully during the case which has been finalised.'**
6. Alas, it is ^{NOT} 'finalised' as I have lost my wife, almost my life, my health, wealth and 'state of mind', in still believing in 'the rule of law' and a 'level rugby pitch' in a British court-room.
7. Could The Criminal Court of Appeal advise me as to whom I can ask in order to cause a proper investigation, well outside South Wales, into the flagrant criminal conduct highlighted in the past 25years or arrange my safe sanctuary in a psychiatric hospital, also well outside South Wales, capable of my finally just 'agreeing to differ' with welsh judiciary?
