**Dear Sir/Madam,**

**The Proverbial Sticking to the Blanket**

1. It may be of no surprise for you to know that during my desperate requests for help from MPs in Devon, Somerset, Hampshire, Dorset and at least four in South Wales i, in relation to the 2019 G4S HMP Parc robbery for my property for the South Wales Police and having already acquired the orchestrated thefts of G4S controlled Caswell Clinic medical records specifically sent by Dr Gaynor Jones to me in 2018, to me, in HMP Parc, I received a police telephone call, yesterday, indicating nothing will be done about any of the thefts.
2. Remember, my January 2020 many hours with Welsh police in Taunton 'going through the motions' of taking down my complaints under the pretence recovery would be expedited, all, has now proven quite futile and a waste of my time. The Welsh detective inspector, on the phone yesterday, stated he had no knowledge of my property stolen by G4S but knew about John Graham's stolen prison correspondence I had tried to send, in May 2019!
3. But those thefts were on the list in my letters of complaint for the police professional standards department in South Wales. It stinks, does it not?
4. Meantime, you will be aware that both the Avon and Somerset and Dorset police have stolen my Volvo and Citroen for my legal papers within and my Volvo, stolen by one of their local hoods in Blandford, was for the very same reasons.
5. YOU, of course, have the power and control of the contents of my property stolen in the three cars and post and prison cells in both HMP Cardiff and HMP Parc do you not as, primarily, you all needed my legal papers following the Welsh police multitude of conspiracies resulting in 423 failed malicious criminal prosecutions culminating in my vindictive two year prison term handed down by some Welsh judge bimbo, in the name of Tracy Lloyd Clark, as corrupt as so many I have so far encountered in that barbaric tribe of villains with their inept hatred of anything English.
6. But you, my own English CPS, appears to be also acting 'hand in glove' with the Welsh authorities by your refusing relevant and reasonable disclosure of evidence in my favour while the lying Welsh authorities, as the policeman on the phone, yesterday, recounted, knew all about John Graham's bag of 'anthrax' from my 2019 Cardiff prison cell.

7. He stated, quite succinctly, he knew nothing of the bags of purported 'heroin' I had been sending to the HM Secretary for Wales at the same time, Alun Cairns MP and yet it was that , was it not, that had caused the drug dogs needing to be called in for 32 minutes while I sat in wheelchair locked up in the prison shower unit?

It stinks, does it not?

- i). Are you ever going to disclose the evidence and motives of each culprit in the above police arranged thefts?
- ii) Are you going to disclose same from the named participants, below, responsible for my three vehicle thefts?
- iii). Do I have to file the tort, instead with the Taunton court, this week?
- iv). or do I simply go back to my MPs for help about this escalating criminal conduct now that one, at least, is being prejudiced now his or her mail is being tampered with?

### **Dolmans, solicitors South Wales Police Fraud**

Dear Madam,

1. I have had no response from you following my complaint on the above matter last month or was it the month before that?
2. I enclose a follow up website article highlighting the new court ordered evidence of 2020, ten years after the trial revealing that the South Wales Police conspiracy incorporated our own Avon and Somerset police officers which is why I wrote to you also for help.
3. I contacted your police HQ today but not confident either the matters I raised with you , concerning my sending purported heroin to to HM Secretary of State for Wales or the enclosed will be investigated
